## INTRODUCTORY.

---

In presenting to our patrons and the general public the CAMBRIDGE CITY DIRECTORY for 1888, No. 37 of the regular series, we would express the hope that it may meet every reasonable expectation. It is scarcely necessary to state that the difficulties and expenses incident to the compilation of such a work are enormous, and not to be appreciated by any except the initiated.

It has been our sincere purpose and earnest endeavor to do our work faithfully.

While grateful for the generous patronage given to the advertising department, to which we call special attention, we would suggest to every citizen to secure a copy for his business place or residence, not only as a convenience but as a valuable record of local history.

A Directory of Harvard College, its Professors and Students, resident in Cambridge, will be found on Page 553.

Americans visiting Europe will find our various Directories on file at Messrs. Henry F. Gillig & Co.'s Exchange and Reading Room, 449 Strand, Charing Cross, London, W. C., and at No. 35 Boulevard des Capucines, Paris.

In concluding, we cannot forbear adding our own congratulations to the public of Cambridge for the recent munificent gifts of a *high-minded and public-spirited gentleman*, a former citizen of the city. Without doubt, these, together with the new Harvard bridge, will greatly help the beautiful city in "stepping forth into a larger and grander life."

Our thanks are due to all who have aided in the collection of information for the present number.

The following synopsis shows the increase of names over last year.

## INSTRUCTION TO KEY-HOLDERS.

Alarms are to be given from the box nearest the location of the fire.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go.

Each box contains a small bell, which, if heard before you pull, indicates that the alarm has been previously given. Any person listening at a box will learn the number of the box from which the alarm was given but in no case will you pull the hook while the alarm is striking. After giving the alarm, remain at the box so as to direct the firemen to the fire. Be sure that you lock the box before leaving it. For instance, if an alarm proceeds from box 36, the bells and gongs attached will strike three; then, after a short pause, six consecutive blows, thus; III-III-III.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

SIGNAL FOR NO SESSION OF THE  
GRAMMAR AND PRIMARY SCHOOLS  
ON DAYS OF SEVERE STORMS.

The signal is five strokes of the fire alarm repeated once.

When given at 7.55 A. M., the morning session of the grammar and primary schools will be omitted.

When given at 11.45 the morning session of the grammar schools will be prolonged one hour, and the afternoon session of the grammar and primary schools will be omitted.

When given at 12.45 the afternoon session of the grammar and primary schools will be omitted.

Citizens are earnestly requested to inform themselves where keys to the signal boxes are kept, signs suitably inscribed being placed over each box, giving the requisite information.

THOS. J. CASEY,

Chief engineer Camb. Fire Dept.

tion.

the same, blank checks, drafts

tisements thereon, bill heads, letter  
heads, envelopes, printed blanks,  
sample cards and other matter of  
the same general character, the  
printing upon which is not designed  
to instruct, amuse, cultivate the  
mind or taste, or impart general in-  
formation, samples, merchandise,  
models, seeds cuttings, bulbs, roots,

and scions, ores, metals and minerals. Rates one cent, each ounce or fraction. If matter of two classes be enclosed in one package, the whole must be paid at higher rate.

Postal laws and regulations have been amended so as to permit transmission through the mails within the United States and territories, of liquids, except spiritous and malt liquors, not liable to explosion or spontaneous combustion or ignition by shock or jar, and not inflammable and of soft soap, pastry or confections, ointments, salves and articles of similar consistency under certain conditions insuring safety to other mail matter in transmission.

#### UNMAILABLE.

The following articles are excluded from the mails; liquids, poisons explosive materials; books, pamphlets, pictures and other publications of an obscene or indecent character; all letters upon the envelope of which, and postal cards upon which, scurrilous epithets are written or printed or engraved, or disloyal-devices printed or engraved; and all articles which, from their form and nature are liable to destroy deface or injure the contents of the mail bags, or the person of any one engaged in the postal service.

#### FOREIGN.

On letters to all parts of Austria, Azores, Belgium, Brazil, Chili, Denmark, Egypt, France, Germany, Great Britain and Ireland, Greece, Hungary, Italy, Luxembourg, Montenegro, Netherlands, Norway, Portugal, Roumania, Russia, Servia, Spain, Sweden, Switzerland, Turkey, five cents per half ounce or fraction thereof; pre-payment, except on registered letters, optional.

Australian Colonies of N. S. Wales Queensland, Victoria, and New Zealand, 12 cents.  $\frac{1}{2}$  oz. or fraction. On letters, South and West Australia, 5 cents.  $\frac{1}{2}$  oz. prepayment compulsory.

Two cent postal cards can be forwarded to any of the above foreign countries.

On newspapers and books, 1 cent for each two ounces or fraction.

Coin, jewelry, and articles subject to custom duty, are excluded from all foreign mails.

Rates of postage to foreign countries other than as above, being subject to change each month, inquiry should be made at the stamp window for ruling rates, before mail is deposited in the office.

All mail matter, except letters, must be so wrapped or enveloped, that their contents may be readily and thoroughly examined by postmasters, without destroying the wrappers.

#### STAMPED ENVELOPES.

The attention of the public is called to the advantage of using stamped envelopes rather than postage stamps. Daily numbers of letters are dropped in the Post-Office with ut prepayment with revenue stamps, and stamps cut from stamped envelopes affixed, which are held for postage; whereas by the use of stamped envelopes, these letters would go forward without delay. Persons purchasing stamped envelopes of any denomination, in quantities of 500 and upward may have request to return in a specified time printed thereon, free of charge. All stamped envelopes damaged by having been improperly addressed, will be redeemed at this office, provided the stamps thereon have not been effaced.

#### SPECIAL DELIVERY SERVICE.

By recent Act of Congress, the special delivery system heretofore in effect only in cities and towns having a population of 4000 or upwards, has been extended to all Post-Offices in the United States.

The privileges of the system have also been extended to all classes of mail matter instead of being confined to first-class matter.

Accordingly every article of mailable matter, mailed at any Post-Office in the United States, to which is affixed a 10 ct. special delivery stamp in addition to regular postage, will be delivered at Letter Carrier offices within the carrier limits, immediately on arrival between the hours of 7 A.M. and 11 P.M., and at any other Post-Office within a one mile radius between the hours of 7 A.M. and 9 P.M.

## The New Hub Range.

### HYGIENIC COOKING.

The best preparation for House-keeping is a Wire Gauze Door, as used exclusively on the New Hub Range.

### The Wire Gauze Oven Door,

Is the most important improvement ever placed on a cooking apparatus. The Gauze allows the outside air to be freely admitted to the oven; the food thus being surrounded by a pure heated atmosphere during the process of cooking. More bread and of a better quality can be produced from the same weight of flour than by any other known process, while meats that are roasted in this oven lose scarcely anything in weight and retain all their juices. Meats cooked well done are as juicy as those cooked rare and no basting is required. Tough meat is made tender and palatable, while loaves of bread are larger than those cooked in a close oven, and keep fresh for a longer time. Broiling can be done more perfectly than over the live coals.

Three of the New Hub Ranges with Wire Gauze Oven Doors are used by the Boston Cooking School for their Demonstration Lessons, being the only range used by them.

INVALIDS' ROLLING

## TRUSSES,

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. N. B.—Ladies attended by those of their own sex.

## Atomizers and Nasal Douche,

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition the highest premium. \* \* \* The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture.

GOLD MEDAL.
